

PRANAKIDS INSTRUCTIONAL MANUAL AND CD

The PranaKids Instructional Program was started to expose children to the pranic energy around them. It was developed by two pranic healers who are also yoga instructors and have a combined total of over 35 years educating young children. It is not intended to teach children Pranic Healing, but rather to expose the children and their parents to energy. It is a fantastic bridge to bring people to Pranic Healing.

We are pleased to announce that The PranaKids Starter-Pak is now available. It includes a manual with objective-based lesson plans, enrichment ideas and an extensive resource list. It also includes the PranaKids CD. The CD was created by Pranic Healers and the children in the PranaKids program. It includes The Super Brain Yoga Song (you will love it), chants and 3 guided meditations (written and read by a Child Psychologist/Pranic Healer).
